

Extra lightweight this Unisex adult sized folding bike is the ultimate in portability

The Puma, like it's sister bike the Lynx, was designed for compactness without any sacrifice of power, and it achieves it superbly. The small 16" wheels and the smaller frame result in extra weight saving and additional natural torque.

Weighing in a mere 18kg the Puma is no lightweight when it comes to performance, it's 180W Intelligent brushless motor offers a top speed of over 12mph without pedalling. Independent tests have shown that with gentle pedalling the Puma's 24V Li-Pol battery will take you up to 33 miles on a single full charge.

With an adjustable saddle height range of 79 - 96cm the Puma can easily accommodate most adults making it a true all-rounder for him and for her.

- Lightweight Folding Frame
- Fold-back Pedals
- 15-20 Mile Powered Range
- 2 Year Warranty
